

Blackboard "How To's"

Creating a Test

To create a test:	
<p>Click on Course Tools under Course Management, and select Tests, Surveys, and Pools.</p>	
<p>Click on Tests.</p>	
<p>Click on Build Tests.</p>	

Type the name of your test in the **Name** field. Optionally, type a description of the test and instructions.

TEST INFORMATION

Name Chapter 3 Test

Description
For the toolbar, press ALT+F10 (PC) or ALT+FN+F10 (Mac).

Chapter 3 Test- American Revolution

Path: p Words:5

Click **Submit**.

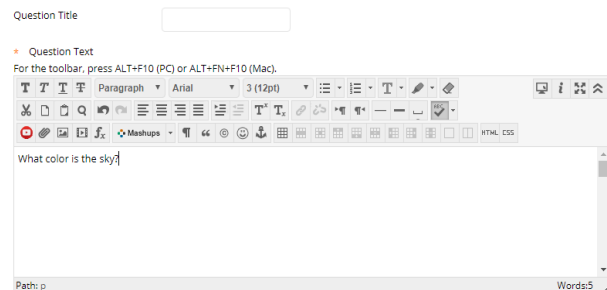

Click on **Question Settings** in the top right corner to select the options that you would like displayed for the answers and feedback well as how the answers are displayed. Press **Submit**.
Note: This is how you allow images to be displayed as answer choices.

You can create a question, reuse a question, or upload a question. To create a new question hover over **Create Question** and select which type of question you want to create. For this example, we will choose a multiple-choice question.

You can name the question by typing in the **Question Title** field. This is not a required field. Type the question in the **Question Text** field.

Question Title

Question Text
For the toolbar, press ALT+F10 (PC) or ALT+FN+F10 (Mac).

What color is the sky?

Path: p Words:5

In the **Options** section, you can edit the following:

- **Answer Numbering** allows you to decide how or if you want your answer selections to be labeled.
- **Answer Orientation** allows you to decide if you want the answer selections to appear vertical or horizontal.
- **Allow Partial Credit** allows you to decide to give the student partial credit if there is more than one correct answer.

Show answers in Random Order allows you to decide if the answers will appear in a different order for each user.

Answer Numbering: None

Answer Orientation: Vertical

Allow Partial Credit:

Show Answers in Random Order:

Number of Answers allows you to decide how many answer sections you want to provide for the question. The default is 4.

ANSWERS

Number of Answers: 4

Begin typing your answer selections.

- Make sure you have selected the correct answer by selecting the dot next to either Answer 1, Answer 2, etc.

If you type the correct answer each time in the Answer 1 field, you will want to make sure that you chose the **Show Answers in Random Order** button shown in a later step.

Correct

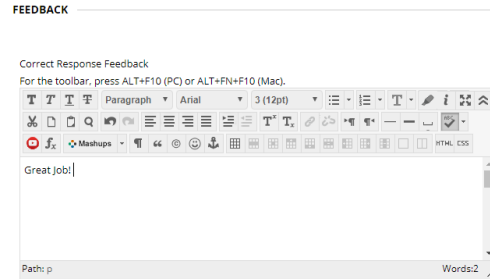

Answer 1

For the toolbar, press ALT+F10 (PC) or ALT+FN+F10 (Mac).

Blue

Path: p Words:1

You can choose to give feedback for correct and incorrect responses by typing in the fields, but these are optional.

Click **Submit** if you are finished creating multiple-choice questions and want to create a different type of question or click **Submit and Create Another** if you want to create another multiple-choice question. Repeat steps above to continue adding questions.

Once you have finished adding questions, you will need to input how many points each question is worth.

The box at the top of the page will update the total points as you update each question's point value.

Once you are finished updating point values, scroll all the way down to the bottom of the page and click **OK**.

To make the test available:

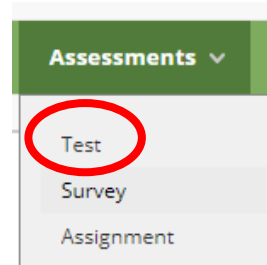

Log into Blackboard and go to your class or school Blackboard course. Make sure **Edit Mode** is turned on. Edit mode is on if you see a green dot.

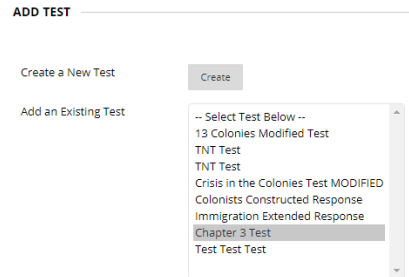

Click on the menu button you want the test to appear.

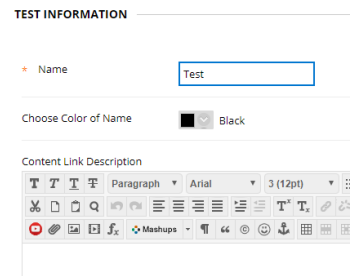

Hover over **Assessments** and select **Test**.

Click on the test you created then click **Submit**.

The **Test Information** will appear, and you can verify the test name, the description, and make changes as needed.

Test Availability

- If you choose **Yes** for **Make available to students**, the link will be available to students to start the test immediately.
- If you keep it as **No** because you are not ready for the students to see the test, you will have to come back later and edit this option when you are ready to make the test available.
- By selecting **Force Completion**, students will have to finish the test in the same session in which they began.
- By selecting **Set Timer**, you can time your test.
- You can choose a **start and end date** and time for your test to be available to students.
- You can assign a **password** to the test so that the students can only access the test with the password.
